

**1997 Irrigated Acreage Estimates vs Total Acreage Estimates  
by Land Cover/Use  
for the Deschutes River Basin - 170703**

Oregon National Resources Inventory Results  
*Estimated for Non-Federal Lands Only*

	Irrigated Acreage Estimates	Irrigated Acreage Error	Non-Irrigated Acreage Estimates	Non-Irrigated Acreage Error	Total Acreage Estimates	Total Acreage Error	Percent of Acreage that is Irrigated
Cultivated Cropland	61,800	13,400	100,500	18,100	162,300	21,800	38%
Non-Cultivated Cropland	83,300	13,700	8,600	3,700	91,900	13,900	91%
Pasture	120,900	24,300	25,500	7,900	146,400	27,000	83%
Total	266,000	31,300	134,600	19,600	400,600	35,500	66%

NOTE: Data may not add to totals because of rounding. The error referred to in the table is the standard error of the estimate. You can obtain the margin of error at the 95% confidence limit by multiplying the error by 1.96. Standard errors greater than 50% of the estimate indicate a low level of statistical reliability.
